Create DAX Measures :

1 Total Bookings : Create Total Bookings Measure

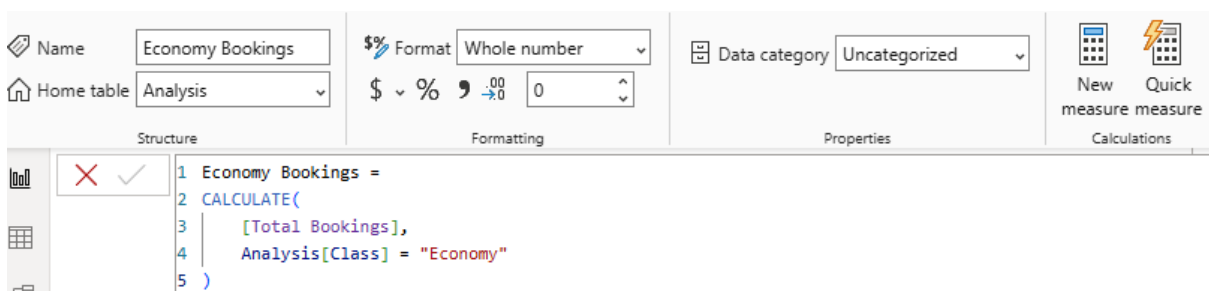

Total Bookings = DISTINCTCOUNT(Analysis[Booking_Id])

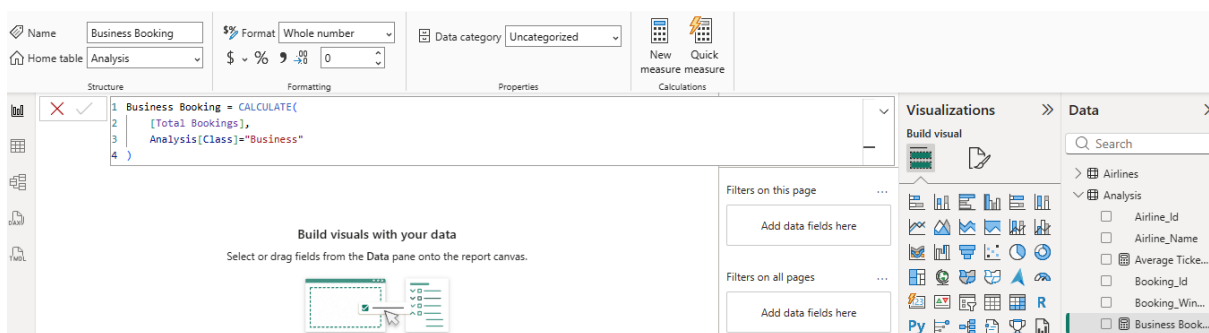

2 Average Ticket Price

3 Economy Bookings

4 Business Bookings

Dashboard Creation :

PAGE 1: Flight Booking Overview

1. Bookings by Airline

Column chart

2. Bookings by Class

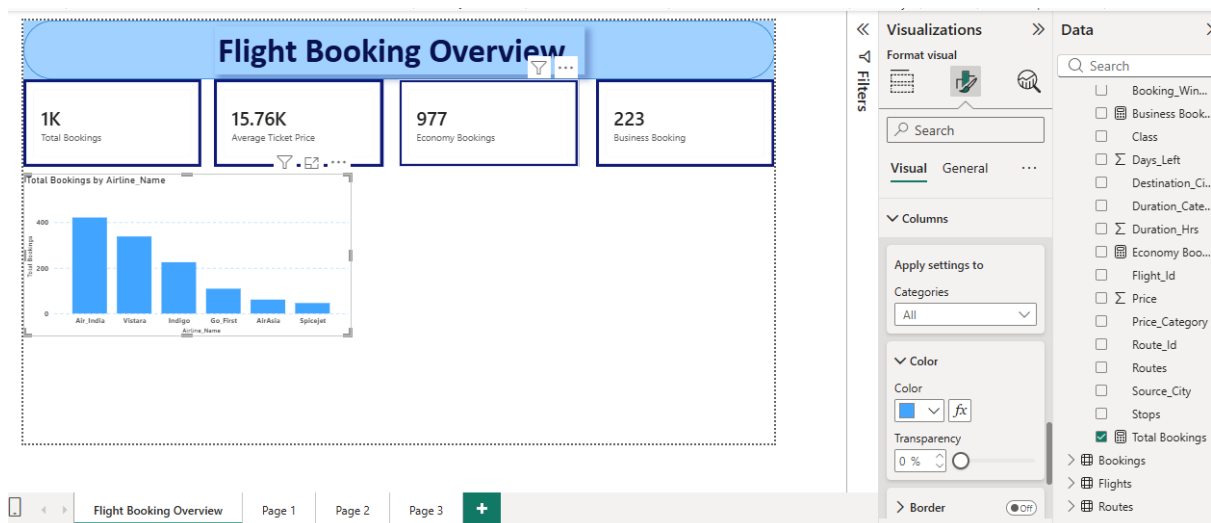

Donut chart

3. Booking Window Analysis

Column chart

4. Top 10 Routes by Bookings

Bar chart

PAGE 2: Airline Performance

Created visuals to compare airline booking volumes, average ticket prices, class-wise booking distribution, airline booking share, and price categories.

Visuals

1. Total Bookings by Airline

Bar/column chart

2. Average Ticket Price by Airline

Column chart

3. Top 10 Routes by Booking Volume

Horizontal bar chart

4. Average Price by Route

Bar chart

5. Airline Booking Distribution

Donut or stacked column

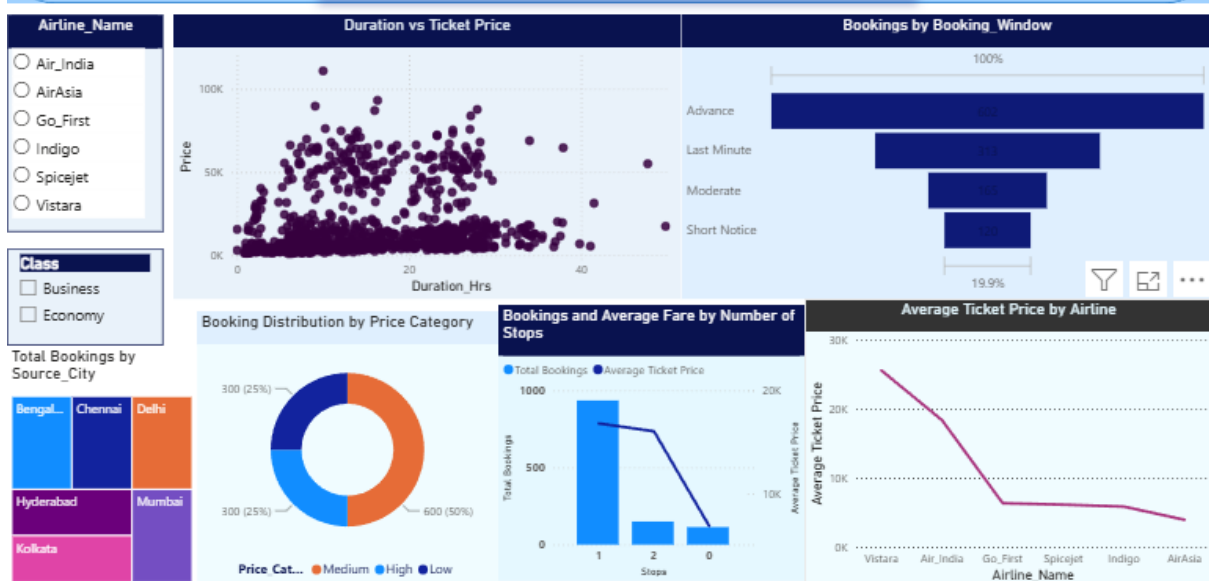

PAGE 3: Route & Fare Insights

Visuals:

- Top 10 Routes

- Bookings by Source City
- Bookings by Destination City
- Average Price by Route
- Average Duration by Route
- Low / Medium / High Price Categories

Route & Fare Insights
